Uncommon.org

Experience

Software Engineering Trainee

Uncommon.org Bootcamp | 9 Months-Present

- Gained hands-on experience in full-stack development, covering frontend (React.js, JavaScript, HTML, CSS, SASS) and backend (Node.js).
- Developed 10+ projects, applying UI/UX principles and integrating digital marketing strategies.
- Worked on a team project for Cudberry, redesigning and branding their website. Contributed as a frontend developer, collaborating on UI implementation and performance optimization.
- Applied agile methodologies by breaking down tasks into smaller components and tracking progress with Scrum sheets to improve time management in product development.
- Earned Google Digital Marketing Certificate, Web Design Certificate, and Frontend Developer Certificate to enhance technical and strategic skills
